## about me

Hey! My name is **Tea**, short for Teodora. I'm a *Design and Communication* Student from *Politecnico di Torino*. I'm passionate about *graphics* and I'm very enthusiastic about every *creative approach*. I keep myself up to date on the *newest graphic trends* and I've got a big passion about *tea* and *music*: I've been playing bass guitar since I was 16 years old.

In my works I seek *sustainability, functionality, balance, precision, expression, self-growth, emotion and creativity*.  
I like working in teams and to collaborate, but I also treasure individual work.

## interests and hobbies

music
